

Technical Data Sheet

GPNA22071

Applications: GPNA22071 is an Impact Copolymer Polypropylene .It is a PP Grinding which high rubber and high melt flow index for using in injection molding process. It is suitable for the applications that need high impact strength at low temperature, such as auto parts, electrical parts, furniture and container.

Addition Rate: Use 100% as it is.

Regulatory Status: Raw materials used in this product comply with:

- FDA 21 CFR part 177.1520 for plastic olefin polymers
- Commission Regulation (EU) No. 10/2011
- RoHS
- REACH

Packaging: GPNA22071 is supplied in regular powder form packed in 20 kg. that should be stored in a dry place at room temperature.

Storage: Recommended storage life up to 12 months provided it is stored as directed.

This product can be used only for the application as specified here above. Customer should inspect the product in order to satisfy itself as to the suitability of the product for the customer's particular purpose.
